MINING PROJECT INSPECTION REPORT

Inspection No. : MPI/2025/0417
Date of Inspection : 16 April 2025
Project Name : Kalyani Coal Mine (Block C)
Location : Dhanbad, Jharkhand
Inspector : R. K. Sharma (Senior Mining Officer)

1. Project Overview

The Kalyani Coal Mine (Block C) is a surface mining project operated by Eastern Minerals Ltd. The project is being developed as per the approved Mining Plan 2023-2028. The inspection was conducted to assess the current status of production, safety, environmental compliance and infrastructure facilities.

2. Key Findings

S. No.	Parameter	Unit	Observed Value	Remarks
1.	Coal Production (till date)	tonnes	48,600	As per site records
2.	Average Grade	%	62%	Within approved range
3.	Overburden Removal	m ³	17,450	Satisfactory
4.	Total Workers	nos.	126	As per attendance register
5.	Safety Compliance	%	98%	No major violations
6.	Water Consumption	m ³ /day	1,250	Within limit

3. Environmental Status

- Air quality: Within permissible limits.
- Water quality: No significant contamination observed.
- Afforestation: 12 hectares covered under reclamation plan.

4. Recommendations

- Enhance slope stability measures at North pit.
- Maintain regular water quality monitoring.
- Continue plantation drive in reclaimed areas.

Place: Dhanbad

Date: 16 April 2025
